

(Continued from Third page.)

tion, also a piece of the private seal of Abraham Yates, a member of the first Congress of the United States; from Boston comes a pair of gold snuffers said to have been used by Barbara Fritchie; another interesting gift is an earring worn by Mrs. Parnell, mother of Charles Stewart Parnell, the Irish agitator. And so one might go on with the list, which is only partly complete, as some of the States have not forwarded their contributions yet. There are rings, bracelets, pens, pencils, parts of cannon, powder flasks and guns, kettles, cups, eyeglasses, thimbles, watches and other things sufficient to fill a curiosity shop. Besides gold, silver, copper and tin ores are sent from the western mines.

The Federal Government has done its share by contributing two cannon, one used by the Union troops and the other by the Confederate army.

These historical and personal ingredients will, however, form only an inconsiderable part of the composition of the big bell, whose total weight will be 13,000 pounds. The metal will be composed of seventy-eight parts Lake Superior copper and twenty-two parts American tin. Its composition, it will therefore be seen, will be American.

The bell will be a counterpart of the one cast for the Centennial at Philadelphia. The height will be six feet six inches, and across the mouth one foot more. The top will be encircled with the words: "Proclaim liberty throughout all the land to all the inhabitants thereof," and near the bottom will be inscribed: "Glory to God in the highest, and on earth peace, good will toward men." Between these two inscriptions will be a third, appropriate to the Columbian celebration.

WALTER J. LE GRYS.

AS IF HE WERE DEAD.

Long Continued Struggle and Tortures of a Man in a Trance.

"You have undoubtedly read now and again in the daily newspaper accounts of persons lying in a trance," said Frank Groniger to a reporter of the St. Louis Globe-Democrat. "I am one of those persons. It is very harrowing to me to read accounts of people lying in this condition and being put in a coffin and even stored in a vault before they come to. I have even read of where a few weeks after some necessity caused disinterment and then the body was found turned face down, as though there had been a struggle for freedom."

"My experience went no further than fifteen hours, I am certain, but that was enough, thank you. The fact is, I awoke one morning in my room, feeling quite rested. I know that I had spent a pleasant night in sleep, and I lay speculating without moving or caring to open my eyes. Then I thought of getting up. I felt rather chilly, I thought, but still comfortable. When I wanted to open my eyes I couldn't. When I tried to put my hands to them I didn't move. Then I struggled to stir at all, but it was only a mental struggle. I then devoted my entire faculties to myself. I tried to call, but couldn't. My mind actually seemed to be ready to burst with rushing blood and confused thought. Then a relapse came and I felt stupefied. I didn't care whether I moved or not."

"Then came alternate periods of mental struggle and stupor. In the afternoon I was discovered by my landlady, who came to look after the room. It seemed astounding to me to think that I should be compelled to lay there and appear as one dead. I heard everything that went on; heard her calls, but couldn't answer. She called others of the family and a doctor. Burning my fingers and feathering my nose didn't disturb me. I couldn't feel it. I came around about 10 o'clock that night. When I did I came with a bound, and I was nervous for a week after. The thought of that probably coming again is a constant source of worry to me."

"You say she tried to stop the car by whistling at it. Did she make a success of it?"

"Yes, in a way. It wasn't her whistling that stopped the car, though; it was the face she made."—*Indianapolis Journal*.

Father—Do you think your position in life warrants your seeking my daughter's hand in marriage?

Suitor—I think so, sir; I'm a lion tamer in Allfords circus.—*Yonkers Statesman*.

People speak of the face of a note when it's really the figure that interests them.—*Philadelphia Times*.

In 1861 the English system of savings banks was placed under parliamentary care and control.

They Have Come!

Those Razor Strops you have been waiting for several weeks, are here. They are so good that it has been said of them, that if you lay your razor, and one of these strops down together on your washstand, the razor will keep a fine edge; still, we recommend following the directions printed on each strop.

Anti-Rattlers.—We have a new kind which you can put on to the shafts of your buggy, without breaking four fingers and a thumb. They prevent two things—rattling and swearing.

Boardman's Pat. Wrench.

—4 sizes, just the kind of combination wrench to have about the house.

Try the new Keystone Egg Beater, if you want a beater that will do quick, clean work.

Hose, —1/2-in. to 2-in., 3 and 4-ply plain or wired, just received; cheap and good quality; also carbolized. We have a large stock of "Hubbuck's," "Pioneer," and cheaper brands of White Leads and Zinc. Also, Oil, Turpentine, and all painters' supplies, and you will do well to see our Stock and get our Prices before you paint your house.

American Flags,—6 to 18 feet long, came by the last steamer to us. They are a fine lot, sewed bunting.

Fire Arms and Ammunition.—A new lot of Sporting and Target Rifles, Colt's new Navy, Smith and Wesson, and cheaper Revolvers, came last week and can now be seen. We carry the most complete assortment of Cartridges in town, from 22 to 50 cal., and always have plenty of them.

Leather.—We have received within the past sixty days, by steamer and sail, 66 Rolls of Leather, containing 9088 lbs., and 5347 ft; also, 3 bales containing 142 doz. sheep skins, so it looks as if we meant to keep our Stock of Leather up, although by getting it in large lots, we are able to keep the prices down.

Salt.—We are headquarters for Hawaiian Salt, as we make it. That the quality is good, and Price Low, is easily shown by the large quantity we sell every week.

Blight Compound.—Five gallons will make 65 gallons of wash. You spray your Lime and Orange Trees with this wash, and the Blight will do the rest, die and drop off the trees. We have the compound at our store, or can give you an order on the Gov't. Nursery for it, but don't forget to bring a 5-gallon can to put it in. We sell spraying outfits.
